Challenges

- Lack of automatic updates and real time visibility of key project data from Primavera.
- Absence of historical trend of key milestones and project progress for corrective action and proactive project management.
- Current manual system of generating monthly report time-consuming and error-prone

Solution

- Custom dashboard architected and developed for stakeholders to view a holistic dashboard with key project/portfolio information
- Milestone trend analysis depicting historical movement of key milestones as an effective and quick means to spot project delays and cost overruns.

Benefits

- On Demand project dashboard providing a standardized dashboard for Bombardier across theatres with real-time project information
- Intuitive interface that shows project progress historically and graphical baseline comparison for analysis of project performance
- User-definable limits of tolerance on key project parameters affecting project performance
- Printable and exportable interface viewable in Primavera requiring no additional hardware on the server and cross compatible with all browsers.
