

Gaea Global Technologies

Oracle Primavera and Value Chain Experts

Primavera and Contract Manager roll out for Government of India enterprise which provides government-funded state insurance for public sector employees and private citizens at subsidized cost. P6 and CM are enabled for them to track their capital projects (hospitals, dispensaries and other essential facilities) and is extended to their subcontractors for a complete solution.

Challenges

- Needed a complete business transformation for tracking their capital projects which is completely manual.
- Required an online estimation and billing tool which will facilitate their vendors (architects/subcontractors) to be part of the business transformation.
- Integration with their ERP system (HR, Finance).
- Technical challenges - High availability of Primavera.

Solution

- Created the PMD module which closely integrated with Primavera Contract manager , GAEA's Estimation Tool & Primavera P6v7.
- Developed an estimation tool which goes against a Schedule of Rates developed by Central Public Works Department of India.
- Measurement Book and Running Bill Generation integrated with Contract manager.
- Eventing solution for copying Project in CM once project is created in P6.
- ERP integration with HR & Finance modules using Web services & API.

Benefits

- Easy accessibility of reports to stakeholders, and centralized data maintenance.
- Reduced Approval Cycle time in estimation and progress payments..
- Complete business transformation in tracking their capital spend on their projects from a manual system to Primavera facilitating tremendous savings in costs and time for ESIC.
