

WMS DASHBOARD

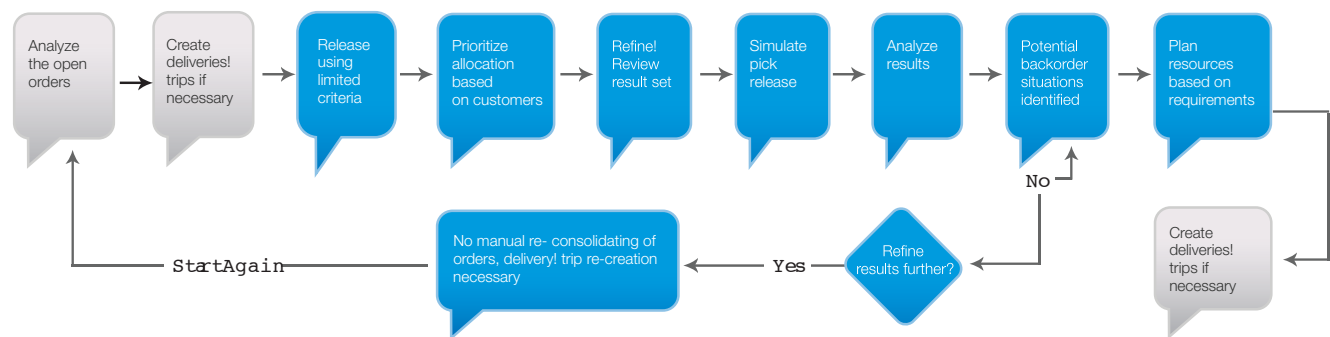

The wms dashboard is a productivity enhancing warehouse management product that enables customers to run multiple wave simulations to plan for optimal resource requirements, prioritize product allocations by customer, create custom dashboards, automate manufacturing operations and diagnose LPN problems. This is a powerful add-on module that fits seamlessly on top of Oracle's WMS and SCM applications, enabling information driven business processes.

Best-in-Class Business Process Enabled by Pick Wave Simulation

Without WMS Dashboard:

With WMS Dashboard:

Other productivity enhancing capabilities provided by wms dashboard

Analytics On Demand

- Create Custom Dashboards
- User Specific
- No custom programming
